

PARTS REPAIR SERVICE

MOTORS

We specialize in in-house rewinding, IRD balancing, machining capabilities, and custom bearing fit repair. Motors are received and given a barcode tracking number which is scribed on every motor. Repair includes inspection of all mechanical fits, electrical parts and installation of new premium motor grade NTN bearings. Factory data or historical data is used to align and test the motor on the bench. All motors are run with a factory drive system for final verification.
