SIEMENS S7-300 PLC

The Siemens S7-300 universal PLC controller is specially designed for innovative system solutions in manufacturing. Units are most commonly found in the automotive, packaging and process industries.

The S7's compact size and modular design allows for a wide range of modules to be added increasing the functionality for future system and process needs. With its ability to communicate with remote devices via PROFIBUS and PROFINET, the S7-300 can control plant wide processes from a centralized location.
