## A history rooted in continuous improvement and a future driven by technology

**Advanced Technology Services, Inc. (ATS)** is a leading solutions provider with over 35 years of proven experience in reliability-centered industrial maintenance and MRO services. Through our technically skilled workforce, standardized processes and smart technologies ATS delivers reduced downtime, greater productivity and measurable results to many Fortune 500 process and discrete manufacturers across various industries.

### We Make Factories Run Better

In 1985, thirty-two passionate people from Caterpillar set out to form an independent company that would fill a gap in the industrial services industry. With market-driven solutions and industry-leading technologies, Advanced Technology Services has grown to be a multi-million dollar, global company. Today, we work with some of the top manufacturing brands to help make their factories run better.

### It Starts with World-Class Safety

That’s why it is the number one tenet of our cultural commitments. It serves as the foundation that we build from. And as a continuous improvement company, we are committed to achieving an injury-free workplace through our ‘Live Safety 24/7’ culture – prioritizing the importance of a safe environment for our employees and customers.

## Industrial Maintenance and Parts Solutions

Utilizing best practices of maintenance techniques and technologies, we offer a variety of high-value solution options to fit your unique production needs.

### COMPREHENSIVE MAINTENANCE SOLUTION

Through our turnkey on-site approach to maintenance where we take our full ownership of your maintenance process, ATS can optimize your production equipment, dramatically lowering your manufacturing costs and establishing standardized metrics for measurable results.

### TECHNICAL WORKFORCE SOLUTION

Our Technical Workforce Solution is a best-in-class alternative to traditional external staffing or internal recruiting initiatives. As a partner in developing strategy and exceeding production objectives, we strengthen your operations with skilled technicians and on-site technical supervisors at all levels of expertise and across multiple disciplines, fitting your required skillsets.

### SURGE SUPPORT SERVICES

If you have a temporary surge in production, a short term maintenance project or simply need additional coverage to supplement your current maintenance efforts, our Surge Support Services can help you fill your staffing gaps for whatever the job requires.

### INDUSTRIAL PARTS SERVICES

Our managed parts services are designed to positively impact the performance of not just your storeroom, but also your manufacturing equipment, your production output – and ultimately your bottom line.
