“Our innovative spirit and strong work ethic exemplifies the ATS mission of continuous improvement by delivering excellence to our customers each and every day.”

– Jeff Owens, CEO

A history rooted in continuous improvement and a future driven by technology

Advanced Technology Services, Inc. (ATS) is a leading industrial services provider specializing in technology-driven industrial maintenance and MRO asset management. Through our technically skilled workforce, standardized processes and IIoT technologies ATS delivers reduced downtime, greater productivity and measurable results to many process and discrete manufacturers across various industries.

We Make Factories Run Better

In 1985, thirty-two passionate people from Caterpillar set out to form an independent company that would fill a gap in the industrial services industry. With market-driven solutions and industry-leading technologies, Advanced Technology Services has grown to be a multi-million dollar, global company. Today, we work with some of the top manufacturing brands to help make their factories run better.

It Starts with World-Class Safety

That’s why it is the number one tenet of our cultural commitments. It serves as the foundation that we build from. At ATS, safety goes beyond our industry-leading OSHA incident rate and regulatory compliance. Our Beyond Zero safety culture prioritizes best-in-class safety procedures and programs with overall employee well-being.

Industrial Maintenance and MRO Asset Management Solutions

Utilizing best practices of maintenance techniques and technologies, we offer a variety of high-value solution options to fit your unique production needs.

COMPREHENSIVE MAINTENANCE SOLUTION

Through our turnkey on-site approach to maintenance where we take our full ownership of your maintenance process, ATS can optimize your production equipment, dramatically lowering your manufacturing costs and establishing standardized metrics for measurable results.

TECHNICAL WORKFORCE SOLUTION

Our Technical Workforce Solution is a best-in-class alternative to traditional external staffing or internal recruiting initiatives. As a partner in developing strategy and exceeding production objectives, we strengthen your operations with skilled technicians and on-site technical supervisors at all levels of expertise and across multiple disciplines, fitting your required skillsets.

SURGE SUPPORT SERVICES

If you have a temporary surge in production, a short term maintenance project or simply need additional coverage to supplement your current maintenance efforts, our Surge Support Services can help you fill your staffing gaps for whatever the job requires.

MRO ASSET MANAGEMENT

Our managed parts services are designed to positively impact the performance of not just your storeroom, but also your manufacturing equipment, your production output – and ultimately your bottom line.
