

INDUSTRIAL PARTS SERVICES

WARRANTIED REPAIRS THAT PERFORM LIKE NEW

As electronic and mechanical parts age and wear, they always seem to fail at the worst time. Direct replacements can often be unavailable as machines become older and obsolete and some manufacturers discontinue specific parts or go out of business - and parts that can be found may have altered specifications, different materials or redesigned connectors and interfaces. Making a new component work in your old machinery takes time, expense and may not even be possible.

ATS service facilities are best-in-class and ready to handle any electronic and mechanical repair needs. Our highly skilled technicians have the experience and technical knowledge to perform every repair with the highest quality and turnaround, all at a significant cost savings.

40-60% Cost Savings vs. Buying New

Rapid Turnaround within Two Weeks

60% Reduction in Repetitive Failures

1-Year in Service, 5-Year Shelf Warranty

OUR QUALITY REPAIR PROCESS INCLUDES:

- + A 40-60% cost savings versus buying new
- + Comprehensive cleaning and inspection prior to repair
- + Identification and replacement of defective components
- + Proactively perform preventative maintenance
- + Full functional testing – your part is returned, ready to run
- + Detailed service report to help you identify repetitive failures
- + Standard 7-10 day lead time or rush option, same day – 48 hours
- + 1-year in service warranty from installation date; 5-year shelf warranty
