

PART REPAIRS THAT DELIVER MORE VALUE—FASTER

Our US-based repair center is equipped to handle all our electronic and mechanical repairs with best-in-class quality and rapid turnaround. Our expert technicians deliver reliable, cost-effective solutions backed by decades of experience and technical knowledge.

	ATS	OTHERS
Turnaround Time	7-10 days standard, 24-48 hours expedited	Often 2-12+ weeks, long international delays
Location	Repairs completed in the US	May be shipped overseas
Evaluation Fees	Free quote and evaluation	Evaluation fees may apply
Repair Quality	Full refurbishment—addressing current failures and potential future issues	Focused only on the failure point
Part Upgrades	Repair process designed to enhance reliability and upgrade parts	Return to original specs
Obsolete Parts	In-house expertise repairing commonly unsupported and discontinued parts	Limited expertise often requiring full part replacement
Testing Process	Rigorous, functional testing—not just bench tests	Often limited to basic functionality checks
Cleaning Process	Washed to like-new condition—not just blown out with air or solvents	Light surface cleaning
Warranty	1-year in-service, 5-year shelf-life warranty	Typically 90 days to 2 years
Cost	On average, 50% less than buying new	Higher cost for OEM parts
